

Dear Lynn Allen,

2/20/90

Thanks for your kind comments.

The easy part is enclosing a list of our books and an order form.

You've got no idea what you are asking when you ask for copies of JFK assassination records. I've about a quarter of a billion pages and copying them all would be impossible.

We have only a primitive machine and copies on it cost more than buying them from the FBI. It will provide copies of what it has already disclosed and is in its public reading room, 10¢ a sheet.

But with me or with it or with anyone you have to know what you want and then ask for it.

Beginning with my third book I included increasing numbers of facsimiles of official records.

Thanks and best wishes,

Harold Weisberg
